- graduated in Architecture at the University of Florence in 1991
- qualified as Professional Architect in 1993
- registered at the Architect Association of L'Aquila at n. 354 since 1995
- native Italian speakers; speaks English

professional activities

From 1988 to 1990 he is part of the design office of the company *"MIRABILI – Forme d'arte per lo spazio dell'esistenza"* closely with the curator Sergio Cammilli. Until 1995 he worked as planner-partner with several firm of architects, having an active part in designing of buildings for public and private housing, and gaining

practical experience in design, construction management, accounting, decoration and interior design.

Since October 1995 he began working as a freelance architect.

Availing of contribution of qualified partners, he mainly operates in housing construction; he is specialized in design and construction of houses, in renovation of old buildings, in parks planning and landscape design, in interior design.

He believes in the continuous dialogue, in the symbiotic relationship between modernity and tradition; in the idea that arises from freehand sketching, and completely matures up to the full definition of all the details.
